

## Yuriy Farber

*Member of the Executive Board*

Yuriy Farber was born and raised in Russia. In 1993, he moved to the United States and, shortly after, began a career in the Door and Hardware Industry. Yuriy spent twelve years (1998 to 2010) as a Compliance Engineer and Product Manager, designing and testing FEMA361 doors and locks for Ingersoll-Rand. During that time, Yuriy completed a Wind Engineering course at FEMA Multi-Hazard Building Design Summer Institute, taught by Dr. James R. McDonald, Dr. Joseph E. Minor, and Dr. Kishor C. Mehta of TTU (2003). Yuriy continues his work as a Product Development Manager, testing and certifying Locking Hardware to P-361 and ICC500 for Securitech Group, Inc., persuading as many door manufacturers as possible to design and certify their products for Tornado applications. As a distinguished member in his field, Yuriy has participated in review committees for FEMA P-361 and P-320.

Yuriy has been involved with the National Storm Shelter Association since 2000. He is proudly married with two kids and one grandson (so far!)
