

Marilyn Latham

Member of the Executive Board

Marilyn started her career with Republic Doors and Frames in November of 1992 and has held a variety of roles within the organization. Her roles have included Estimating, Customer Service, Marketing, Technical Support, Engineering, and most recently Codes, Compliance and Certifications. She helps support product design in testing and certification for Steelcraft and Republic Doors and Frames.

Marilyn is also active in many industry associations, Steel Door Institute (SDI), Hollow Metal Manufacturers Association (HMMA), National Fire Protection Association (NFPA), International Code Council (ICC 500/NSSA), American Society for Testing Materials (ASTM) and UL STP 10 (UL Standards Technical Panel). She serves on various organizational technical committees.

Marilyn brings over 25 years of experience and has demonstrated strong customer support, knowledge of doors and frames design, testing and certification, and is highly driven.
